

Shin Yat Tong On Yat Kindergarten

Rescheduling of Outdoor Learning Day on December 2

25th November, 2022

Dear Parents,

As the Observatory predicts that the weather will be rather chilly from 28/11 to 2/12, the minimum temperature will drop to 14 degrees Celsius. It is forecasted that it will rain within 2 days (from 1/12 to 2/12). According to the above weather conditions, we believe that it is not suitable to hold any outdoor learning activities because the health and safety of teachers, students and parents are the most important concern. In addition, another consideration is the issue of coach. If the shuttle bus is cancelled on the event day, we still need to pay the rental fee. To avoid the unnecessary loss, we decide to postpone the event for one week.

To avoid disappointing children and parents who have registered, **we decide to postpone the Outdoor Learning Day to the same time and place in the afternoon on 9/12(Fri) when the birthday party in December originally scheduled to be held on 9/12 (Fri). It will be held in advance on the morning on 2/12(Fri).** Please pay attention to the rearrangement.

If some of you are unable to participate in the activity due to rescheduling, we would like to apologize for any inconvenience caused. Those affected parents can bring the receipts to General Office on or before 29/11(Tue) for refund. Thank you for attention.

Yours faithfully,

General Office
