K3 Parent-teacher Meeting and Informational Session on Applying for Elementary School Places for the 2025-26 School Year

Dear parents,

Hello everyone! The Education Bureau's Primary One placement process for the 2026/27 academic year has begun. Our kindergarten will collect Primary One application forms for your children from the Kwun Tong District Office of the Education Bureau on Monday, September 1, 2025. To help parents better understand the application procedures, school selection guidelines, and instructions for completing the application form for the 2026/27 Primary One year, our kindergarten will hold a "Upper Class Parent Meeting and Primary One Placement Application Briefing" at the school on Thursday, November 9, from 9:00 AM to 11:00 AM. All parents of upper class children are warmly invited to attend; each family may send 1-2 parents. If any parent cannot attend in person, they can participate via video or watch a pre-recorded video.

For detailed information about the 2026/27 Primary One placement process, please refer to the important dates and the Education Bureau's Primary One Admissions Office schedule shown in the lower left corner of our school calendar. On the day of the information session, our kindergarten will distribute relevant materials to all parents.

We kindly remind parents to carefully review the school brochures sent by various primary schools and distributed by our teachers. Pay special attention to the dates and times of each primary school's "Open Day" and "Special Event Day," and try to attend whenever possible. This will give you a better understanding of each school's educational philosophy, faculty, facilities, and curriculum. For schools you have long admired, this is a great opportunity to visit, meet the principal and teachers, and leave a positive impression. Our kindergarten will continue to maintain close contact with all primary school principals and actively organize kindergarten-primary school activities this academic year, supporting and collaborating to foster a friendly relationship among kindergarten, primary schools, and parents.

Graduates of Shin Yat Tong are consistently highly regarded and appreciated by principals and teachers of various primary schools. Most graduates achieve top grades in primary

school, demonstrating outstanding performance both academically and in character. Our kindergarten is very confident in the graduating students and their parents for the 2024/25 academic year. We believe our children will uphold the excellent reputation of our alma mater, Shin Yat Tong On Yat Kindergarten, as outstanding students and parents. We have even greater confidence in the 2025/26 graduating class—you, the children. We are sure they will excel, strive for success, and shine brightly in primary school!

Parents interested in attending the Primary One placement info session, please reply via the EVI FAMILY parent reply slip by April 9 (Thursday). If you have any questions about this Primary One placement session, please contact our school administration staff or your child's homeroom teacher at 2345 1222.

As we begin the new semester, let's work together—teachers and parents—to support and encourage the children's learning and growth! We wish all our upper-grade students success in securing placements at their desired primary schools. Thank you, parents!

Yours faithfully,
School Affairs Office
