## 活動目標

- Learn about maintaining oral hygiene
- Able to use oral hygiene tools such as toothbrush, toothpaste and dental floss correctly
- Cultivate good eating habits in children

## 活動簡介

K2 Children of Shin Yat Tong On Yat Kindergarten visited the Department of Health's School Dental Care Centre – Sunshine Smile Playground. Through listening to stories, watching animations, and role-playing games, the children actively participated and engaged in a relaxed and enjoyable atmosphere, learning how to protect their teeth and ensure they have sunny smiles every day. This activity taught the children knowledge and skills for maintaining oral hygiene and protecting dental health, thereby cultivating good eating habits. It not only enhanced their health awareness but also allowed them to learn important life skills in a fun and engaging environment.
