活動名稱

Visit Ocean Park ~ "Environment and Conservation Fund x Ocean Park Seahorse Rangers " project

活動目標

- Understanding the living habits and habitats of marine life
- Learn about conservation and environmental protection
- Cultivating good character of loving animals and raising environmental awareness

活動簡介

Our kindergarten's upperclassmen were fortunate to participate in the "Environment and Conservation Fund x Ocean Park Seahorse Rangers" project, enriching the children's conservation horizons and cultivating their habits of environmental protection. The children were filled with curiosity and excitement as they stepped into the fantastic world of marine life and animals. We saw adorable pandas "An An" and "Coco," cute meerkats and giant tortoises, emperor penguins in Antarctica, and even giant manta rays and sharks swimming overhead in the marine wonders section—the children were incredibly excited! Through close observation, drawing, and digital projection, the children not only learned about various marine creatures but also learned the importance of protecting the ocean and caring for the environment.
