2025-2026

K3

### 活動名稱

Visit the Hong Kong Central Library and the Hong Kong Flower Show 2026

### 活動目標

- Learn about the library's facilities and functions, and recognize and appreciate different plants.
- Learn about different types of flowers, the procedure for borrowing books, and how to follow library rules.
- Cultivating children's virtue of protecting the environment

### 活動簡介

The upper-grade kindergarten students, accompanied by their teachers and parents, embarked on a fulfilling and joyful outdoor learning day. In the morning, they visited the Hong Kong Central Library, where the children enjoyed spring-themed picture books and their favorite books in a quiet reading space. They also tried out the self-service borrowing machine. In the afternoon, they moved to Victoria Park to visit the "Hong Kong Flower Show 2026." This year's theme, "Finding Fragrance in the Language of Flowers—Savoring the City's Unique Characteristics," featured violets as the main attraction, along with fields of tulips, hydrangeas, and other vibrant flowers. The children admired the floral arrangements designed with Hong Kong landmarks up close. This activity allowed the children to connect with nature, learn about different plants, and appreciate floral installations designed with plants, fostering a love for the environment in the young children.
