年級

K2

## 活動名稱

K2 Visit the Hong Kong Flower Show 2026

## 活動目標

- Recognize and appreciate different plants
- Learn about Hong Kong culture by appreciating different floral art creations.
- Cultivating children's virtue of caring for the environment and fostering their aesthetic sense

## 活動簡介

K2 children and their parents visited Victoria Park to explore the annual Hong Kong Flower Show, themed around violets this year. In the "Fragrance of Flowers—Savoring the City's Unique Charm" section, they experienced the beauty of spring. Through various floral installations, the children cultivated their aesthetic sense, learned about different plant types and shapes, and broadened their horizons. The "Hong Kong Food and Drinks" section showcased Hong Kong's culinary culture, introducing them to local snacks such as milk tea and pineapple buns.

The children explored the park in an orderly fashion, speaking softly, learning about various flowers, understanding Hong Kong culture, developing their observation and expression skills, and learning to cherish every plant. Parents and children, teachers and students alike, created warm spring memories together through this activity.
