2023-2024

K2

活動名稱

Nature Explorer Junior Seasonal Adventure Series

活動目標

- Understanding the unique features of different habitats
- They can design unique mini cameras and food for meerkats and giant tortoises.
- Cultivate love for the natural environment

活動簡介

Our kindergarten was invited by Ocean Park to participate in a free trial program for their summer adventure course. This allowed children to become little explorers, "visiting" different animals around the world and creating their own environmental enrichment materials to provide delicious breakfasts for meerkats and giant tortoises. Through engaging interactive storytelling and various games, children learned about the unique abilities of animals and unleashed their creativity to design one-of-a-kind mini-cameras to instantly capture precious photos of their journey.
