活動簡介

The Dragon Boat Festival is a traditional Chinese festival. With the annual Dragon Boat Festival approaching, teachers have designed various activities for the children to learn about the traditional customs and traditions of the festival, including the materials and steps for making zongzi (sticky rice dumplings), and tasting them. In addition, our kindergarten has invited parent volunteers and school staff to help all the children make zongzi, ensuring that the traditions and skills of eating and making zongzi are passed down through generations. This also allows each child to take a zongzi home to share with their family before the festival, celebrating the Dragon Boat Festival together.
