活動名稱

National Security Education Week Second semester

活動目標

- Recognizing the preciousness of water resources
- Able to identify correct behaviors that conserve water resources
- Cultivating good moral character and behavior in children, and cherishing water resources.

活動簡介

The school held a "National Safety Education Week" from April 17th to April 21st. During this week, in addition to telling stories about cultivating good character, teachers also used videos, display boards, experiments, and games to help children understand the preciousness of water resources, cultivate their appreciation for water resources, encourage them to participate in environmental protection work, and care for the environment.
