活動名稱

Explore the museum and learn about Chinese history

活動目標

- To learn about and appreciate ancient Chinese artifacts and understand contemporary development
- Strengthen young children's initial understanding of the history and culture of their motherland.
- Guide children to practice traditional Chinese virtues in their daily lives

活動簡介

Chinese culture has a long history and contains a wealth of excellent traditions. On the day of the event, professional guides led the older children on a visit to the "Simulated National History Museum," explaining Chinese historical stories and allowing them to learn about and appreciate ancient Chinese artifacts and understand contemporary developments through engaging interactive games. This enhanced the children's initial understanding of their country's history and culture, guided them to practice traditional Chinese virtues in their daily lives, and helped them establish correct values and attitudes.
