活動名稱

Explore nature – a family trip to Lai Chi Kok Park

活動目標

- Understanding the characteristics of Lingnan-style architecture in China
- Able to read maps and signs, recognize the names of various facilities, and visit different attractions within the park.
- Cultivate an appreciation for the culture and architectural art of Jiangnan, China.

活動簡介

To align with the theme of "National Security Education Week," families and children from our kindergarten visited Lai Chi Kok Park together. They learned about the architectural features of the Lingnan style in China, enriching their understanding and appreciation of Jiangnan culture and architectural art. Guided by teachers, the children explored different attractions within the park by reading maps and signs, cultivating their ability to use park facilities with care and respect for public property and rules. Simultaneously, teachers designed various STEM games for children of different age groups, allowing families and children to enjoy quality time together and strengthening the parent-child relationship.
