Name of Activity

Visiting Hong Kong Zoological and Botanical Gardens

Objective(s)

- Understanding the living habits and characteristics of different animals
- Name children's favorite animals
- Cultivate the correct attitude to protect animals

Brief Descriptions:

Children visited Hong Kong Zoological and Botanical Gardens. They were very curious about different plants and animals, especially mammals, such as orangutans, lemurs, marmosets. The children felt the animals kept jumping look like to welcoming children to visit, which is very interesting.
