**Name of Activity**

Parent-child shaved ice making

**Objective(s)**

- Understanding that Xinjiang shaved ice is a summer food
- Being able to add ingredients to the shaved ice to enhance its color
- Liking to savor the taste of shaved ice

**Brief Descriptions:**

Xinjiang shaved ice is a summer treat. Our center invites parents and children to participate in a shaved ice activity. First, parents will listen to a lecture on Chinese ethnic groups, and then they will work together with their children to make shaved ice. Children can add ingredients like cheese, fruits, and raisins into the shaved ice. Finally, under the scorching summer sun, they can slowly enjoy the delicious shaved ice.
