School-based Learning Activity of outdoor experiential learning
Display Form

Shin Yat Tong Yat Tung Kindergarten

Name of School

2025-2026

School Year

K1

Grade Level

Name of Activity

Visiting Hong Kong flower exhibition

Objective(s)

- Observe that flowers have different shapes, colors, and sizes.
- Count the number of petals and name their colors.
- Cultivate a love for flowers and an attitude of caring for nature.

Brief Descriptions:

In springtime, flowers bloom in abundance. Our kindergarten took the children to visit the Hong Kong Flower Show. This year's theme flower is the cosmos, which showcases vigorous vitality. The children were also able to admire floral arrangements from all over the world and take photos in front of the beautifully designed floral displays, which made them very happy.
